# Subject index

Acetonitrile
Conductivity of lithium perchlorate in propylene carbonate + acetonitrile mixtures from infinite dilution to saturation at temperatures from −35 to 35°C (Barthel et al.) 249
Acid medium
Radiotracer study of anion adsorption in the course of oxidation of D-glucose at a platinized platinum electrode in acid medium (Horányi) 335
Ad-atoms
Selective oxidation of the aldehyde functional group in the glycolaldehyde molecule at Pt electrodes modified by Sb ad-atoms (Shibata et al.) 389
Adsorption equilibria
Adsorption equilibria in two-dimensional systems (Noël et al.) 343
Alcohols
Total voltammetric waves of solvents at microelectrodes: electroanalytical aspects for simple alcohols (Ciszkowska, Stojek) 135
Aldehyde
Selective oxidation of the aldehyde functional group in the glycolaldehyde molecule at Pt electrodes modified by Sb ad-atoms (Shibata et al.) 389
Alkaline solution
Electrosynthesis of lead oxide in alkaline solution and its photoelectrochemical properties (Veluchamy et al.) 73
Alkaline sulphide solutions
Cyclic voltammetry and potential-modulated reflectance spectroscopic study of an iron electrode in alkaline sulphide solutions (Caram et al.) 199
Anion adsorption
Radiotracer study of anion adsorption in the course of oxidation of D-glucose at a platinized platinum electrode in acid medium (Horányi) 335
Anisotropic dissolution
Chemical and electrochemical anisotropic dissolution of silicon in ethylenediamine + pyrocatechol + water media (Campbell et al.) 211
Artificial photosynthetic system
Electrocatalytic reduction of carbon dioxide in aqueous medium by bis(2,2′ : 6′,2″-terpyridine)cobalt(II) complex incorporated into a coated polymer membrane (Yoshida et al.) 355
Association constant
Conductivity of lithium perchlorate in propylene carbonate + acetonitrile mixtures from infinite dilution to saturation at temperatures from −35 to 35°C (Barthel et al.) 249

Buckminsterfullerene
Buckminsterfullerene as a model reactant for testing electron transfer theory (Fawcett et al.) 375

Calorimetry
A calorimetric study of the electrolysis of $D_2O$ and $H_2O$ at palladium cathodes (Quickenden, Green) 167
Carbon dioxide
Electrocatalytic reduction of carbon dioxide in aqueous medium by bis(2,2′ : 6′,2″-terpyridine)cobalt(II) complex incorporated into a coated polymer membrane (Yoshida et al.) 355
Clay-modified electrodes
Effect of clay charge on $Cr(bpy)_3^{3+}$ reaction mechanism at clay-modified electrodes (Fitch, Lee) 45

$C_{60}$-modified electrodes
Voltammetry at $C_{60}$-modified electrodes (Compton et al.) 235
CO
Electrochemical and EMIRS studies of CO and methanol adsorption on a Pt(100) electrode in carbonate solution (Morallón et al.) 289
Cold fusion
A calorimetric study of the electrolysis of $D_2O$ and $H_2O$ at palladium cathodes (Quickenden, Green) 167
Computer simulation
Computer simulation of large-scale controlled-potential electrolysis. Father–son and grandfather–grandson self-protonation systems (Vincent, Peters) 25
Conducting polymers
Lateral growth of polypyrrole at an ionically conducting polymer coated dual electrode assembly (Ye, Bélanger) 395
Conductivity
Conductivity of lithium perchlorate in propylene carbonate + acetonitrile mixtures from infinite dilution to saturation at temperatures from −35 to 35°C (Barthel et al.) 249
Controlled-potential electrolysis
Computer simulation of large-scale controlled-potential electrolysis. Father–son and grandfather–grandson self-protonation systems (Vincent, Peters) 25
Convection
Measurements of spatial–temporal structures in precipitated iron sulfate (Kleinke et al.) 107
Coulombic attraction
Electrochemistry of cytochrome *c*: influence of coulombic attraction with indium tin oxide electrode (Daido, Akaike) 91
$Cr(bpy)_3^{3+}$ reaction mechanism
Effect of clay charge on $Cr(bpy)_3^{3+}$ reaction mechanism at clay-modified electrodes (Fitch, Lee) 45
Cyclic voltammetry
Cyclic voltammetry and potential-modulated reflectance spectroscopic study of an iron electrode in alkaline sulphide solutions (Caram et al.) 199
Cyclic voltammetric and potential-modulated reflectance study of the electroadsorption of CO, methanol and ethanol on a palladium electrode in acid and alkaline media (Caram, Gutiérrez) 313
Cytochrome c
Electrochemistry of cytochrome *c*: influence of coulombic attraction with indium tin oxide electrode (Daido, Akaike) 91

D-glucose
Radiotracer study of anion adsorption in the course of oxidation of D-glucose at a platinized platinum electrode in acid medium (Horányi) 335
Dialysis electrode
A dialysis electrode for glycerol (Albery et al.) 161
Diaryl dichalcogenides
Electrochemical synthesis of diaryl dichalcogenides in acetonitrile, with two sacrificial electrodes: diseleno and ditelluro derivatives of quinolones (Thobie-Gautier et al.) 383
Differential pulse anodic stripping voltammetry
Polarography and differential pulse anodic stripping voltammetry of Pb(II)/polycarboxylate complexes (Díaz-Cruz et al.) 119
Diffusion-controlled transport
Effect of clay charge on $Cr(bpy)_3^{3+}$ reaction mechanism at clay-modified electrodes (Fitch, Lee) 45
Diffusion Length
The synthetic semiconducting diamond electrode: a photoelectrochemical estimation of the diffusion length (Pleskov et al.) 401
$D_2O$
A calorimetric study of the electrolysis of $D_2O$ and $H_2O$ at palladium cathodes (Quickenden, Green) 167

Electroadsorption
Cyclic voltammetric and potential-modulated reflectance study of the electroadsorption of CO, methanol and ethanol on a palladium electrode in acid and alkaline media (Caram, Gutiérrez) 313
Electrochemical intercalation
Voltammetry at $C_{60}$-modified electrodes (Compton et al.) 235
Electrochemical processes
In-situ Fourier transform infrared spectroscopy of electrochemical processes at the silicon–acetonitrile interface (Boonekamp et al.) 187

Electron transfer
Determination of the heterogeneous electron-transfer rate constants of $C_{60}$ (Oyama et al.) 367
Potential difficulties in obtaining reliable rate constants for thermodynamically unfavorable electron transfer cross-reactions between reactants within polymer coatings on rotating disk electrodes and co-reactants in solution (Xie, Anson) 405
Electron Transfer Theory
Buckminsterfullerene as a model reactant for testing electron transfer theory (Fawcett et al.) 375
Electrosynthesis
Electrosynthesis of lead oxide in alkaline solution and its photoelectrochemical properties (Veluchamy et al.) 73

Fourier transform infrared spectroscopy
In-situ Fourier transform infrared spectroscopy of electrochemical processes at the silicon–acetonitrile interface (Boonekamp et al.) 187
Fullerene
Voltammetry at $C_{60}$-modified electrodes (Compton et al.) 235
Fullerenes
Determination of the heterogeneous electron-transfer rate constants of $C_{60}$ (Oyama et al.) 367

Glycerol
A dialysis electrode for glycerol (Albery et al.) 161
Gold adsorption
Study of electrochemical gold adsorption on polycrystalline platinum substrates (Bakos, Szabó) 303
Goldman model
Dc and ac responses of ion transfer across an oil–water interface with a Goldman-type current–potential characteristic (Kakiuchi) 1
Greenhouse effect
Electrocatalytic reduction of carbon dioxide in aqueous medium by bis(2,2′ : 6′,2″-terpyridine)cobalt(II) complex incorporated into a coated polymer membrane (Yoshida et al.) 355

$H_2O$
A calorimetric study of the electrolysis of $D_2O$ and $H_2O$ at palladium cathodes (Quickenden, Green) 167

Impedance spectroscopy
The synthetic semiconducting diamond electrode: a photoelectrochemical estimation of the diffusion length (Pleskov et al.) 401
Indium tin oxide electrode
Electrochemistry of cytochrome *c*: influence of coulombic attraction with indium tin oxide electrode (Daido, Akaike) 91
Insoluble monolayers
Adsorption equilibria in two-dimensional systems (Noël et al.) 343
Ion transfer
Dc and ac responses of ion transfer across an oil–water interface with a Goldman-type current–potential characteristic (Kakiuchi) 1
Iron electrode
Cyclic voltammetry and potential-modulated reflectance spectroscopic study of an iron electrode in alkaline sulphide solutions (Caram et al.) 199
IR spectroscopy
Electrochemical and EMIRS studies of CO and methanol adsorption on a Pt(100) electrode in carbonate solution (Morallón et al.) 289

Langmuir–Blodgett technique
Adsorption equilibria in two-dimensional systems (Noël et al.) 343
Lead oxide
Electrosynthesis of lead oxide in alkaline solution and its photoelectrochemical properties (Veluchamy et al.) 73
Lithium cyclability
New parameters for lithium cyclability in organic electrolytes for secondary batteries (Sazhin et al.) 61
Lithium perchlorate
Conductivity of lithium perchlorate in propylene carbonate + acetonitrile mixtures from infinite dilution to saturation at temperatures from −35 to 35°C (Barthel et al.) 249

Methanol adsorption
Electrochemical and EMIRS studies of CO and methanol adsorption on a Pt(100) electrode in carbonate solution (Morallón et al.) 289
Methylene blue
Effect of sulphur-adlayer preparation on self-assembled monolayers of phenothiazines at polyoriented platinum electrodes (Svetličić et al.) 145
Microelectrodes
Total voltammetric waves of solvents at microelectrodes: electroanalytical aspects for simple alcohols (Ciszkowska, Stojek) 135
MOR zeolite
Electrochemical behavior of MOR zeolite in poly(ethylene oxide) oligomer (Shi et al.) 363
Multisweep cyclic voltammetry
Effect of clay charge on $Cr(bpy)_3^{3+}$ reaction mechanism at clay-modified electrodes (Fitch, Lee) 45

Normal pulse polarography
Experimental verification of theoretically predicted effects of reactant adsorption in normal pulse polarography (Lukaszewski et al.) 13

Oil–water interface
Dc and ac responses of ion transfer across an oil–water interface with a Goldman-type current–potential characteristic (Kakiuchi) 1
Organic electrolytes
New parameters for lithium cyclability in organic electrolytes for secondary batteries (Sazhin et al.) 61
Oxidation
Selective oxidation of the aldehyde functional group in the glycolaldehyde molecule at Pt electrodes modified by Sb ad-atoms (Shibata et al.) 389
Oxygen adsorption
Electrochemical study of step reconstruction on platinum surfaces belonging to the [0$\bar{1}$1] zone between Pt(311) and Pt(111) (Rodes, Clavilier) 269

Palladium cathodes
A calorimetric study of the electrolysis of $D_2O$ and $H_2O$ at palladium cathodes (Quickenden, Green) 167
Palladium electrode
Cyclic voltammetric and potential-modulated reflectance study of the electroadsorption of CO, methanol and ethanol on a palladium electrode in acid and alkaline media (Caram, Gutiérrez) 313
Phenothiazines
Effect of sulphur-adlayer preparation on self-assembled monolayers of phenothiazines at polyoriented platinum electrodes (Svetličić et al.) 145
Platinum electrodes
Effect of sulphur-adlayer preparation on self-assembled monolayers of phenothiazines at polyoriented platinum electrodes (Svetličić et al.) 145
Platinum substrates
Study of electrochemical gold adsorption on polycrystalline platinum substrates (Bakos, Szabó) 303
Platinum surfaces
Electrochemical study of step reconstruction on platinum surfaces belonging to the [0$\bar{1}$1] zone between Pt(311) and Pt(111) (Rodes, Clavilier) 269
Polarography
Polarography and differential pulse anodic stripping voltammetry of Pb(II)/polycarboxylate complexes (Díaz-Cruz et al.) 119
Polycarboxylate
Polarography and differential pulse anodic stripping voltammetry of Pb(II)/polycarboxylate complexes (Díaz-Cruz et al.) 119
Poly(ethylene oxide)
Electrochemical behavior of MOR zeolite in poly(ethylene oxide) oligomer (Shi et al.) 363
Polymer coatings
Potential difficulties in obtaining reliable rate constants for thermodynamically unfavorable electron transfer cross-reactions between reactants within polymer coatings on rotating disk electrodes and co-reactants in solution (Xie, Anson) 405
Polypyrrole
Lateral growth of polypyrrole at an ionically conducting polymer coated dual electrode assembly (Ye, Bélanger) 395
Potential-modulated reflectance spectroscopy
Cyclic voltammetry and potential-modulated reflectance spectroscopic study of an iron

electrode in alkaline sulphide solutions (Caram et al.) 199
Cyclic voltammetric and potential-modulated reflectance study of the electroadsorption of CO, methanol and ethanol on a palladium electrode in acid and alkaline media (Caram, Gutiérrez) 313
Propylene carbonate
Conductivity of lithium perchlorate in propylene carbonate + acetonitrile mixtures from infinite dilution to saturation at temperatures from −35 to 35°C (Barthel et al.) 249
Pt(100) electrode
Electrochemical and EMIRS studies of CO and methanol adsorption on a Pt(100) electrode in carbonate solution (Morallón et al.) 289
Pyrocatechol
Chemical and electrochemical anisotropic dissolution of silicon in ethylenediamine + pyrocatechol + water media (Campbell et al.) 211

Quinolones
Electrochemical synthesis of diaryl dichalcogenides in acetonitrile, with two sacrificial electrodes: diseleno and ditelluro derivatives of quinolones (Thobie-Gautier et al.) 383

Radiotracer study
Radiotracer study of anion adsorption in the course of oxidation of D-glucose at a platinized platinum electrode in acid medium (Horányi) 335
Rate constants
Determination of the heterogeneous electron-transfer rate constants of $C_{60}$ (Oyama et al.) 367
Potential difficulties in obtaining reliable rate constants for thermodynamically unfavorable electron transfer cross-reactions between reactants within polymer coatings on rotating disk electrodes and co-reactants in solution (Xie, Anson) 405
Reactant adsorption
Experimental verification of theoretically predicted effects of reactant adsorption in normal pulse polarography (Lukaszewski et al.) 13
Rotating disk voltammetry
Potential difficulties in obtaining reliable rate constants for thermodynamically unfavorable electron transfer cross-reactions between reactants within polymer coatings on rotating disk electrodes and co-reactants in solution (Xie, Anson) 405

Sacrificial electrodes
Electrochemical synthesis of diaryl dichalcogenides in acetonitrile, with two sacrificial electrodes: diseleno and ditelluro derivatives of quinolones (Thobie-Gautier et al.) 383
Secondary batteries
New parameters for lithium cyclability in organic electrolytes for secondary batteries (Sazhin et al.) 61
Self-assembled monolayers
Effect of sulphur-adlayer preparation on self-assembled monolayers of phenothiazines at polyoriented platinum electrodes (Svetličić et al.) 145
Self-protonation systems
Computer simulation of large-scale controlled-potential electrolysis. Father–son and grandfather–grandson self-protonation systems (Vincent, Peters) 25
Silicon
Chemical and electrochemical anisotropic dissolution of silicon in ethylenediamine + pyrocatechol + water media (Campbell et al.) 211
Silicon–acetonitrile interface
In-situ Fourier transform infrared spectroscopy of electrochemical processes at the silicon–acetonitrile interface (Boonekamp et al.) 187
Solvents
Total voltammetric waves of solvents at microelectrodes: electroanalytical aspects for simple alcohols (Ciszkowska, Stojek) 135
Spatial–temporal structures
Measurements of spatial–temporal structures in precipitated iron sulfate (Kleinke et al.) 107
Step reconstruction
Electrochemical study of step reconstruction on platinum surfaces belonging to the [0$\bar{1}$1] zone between Pt(311) and Pt(111) (Rodes, Clavilier) 269
Sulphur adlayer
Effect of sulphur-adlayer preparation on self-assembled monolayers of phenothiazines at polyoriented platinum electrodes (Svetličić et al.) 145

Surface tension
Measurements of spatial–temporal structures in precipitated iron sulfate (Kleinke et al.) 107
Synthesis
Electrochemical synthesis of diaryl dichalcogenides in acetonitrile, with two sacrificial electrodes: diseleno and ditelluro derivatives of quinolones (Thobie-Gautier et al.) 383
Synthetic diamond electrodes
The synthetic semiconducting diamond electrode: a photoelectrochemical estimation of the diffusion length (Pleskov et al.) 401

Thionine
Effect of sulphur-adlayer preparation on self-assembled monolayers of phenothiazines at polyoriented platinum electrodes (Svetličić et al.) 145
Two-dimensional systems
Adsorption equilibria in two-dimensional systems (Noël et al.) 343

Voltammetry
Voltammetry at $C_{60}$-modified electrodes (Compton et al.) 235
